## **Singles and Pairs Clarifications Feb. 2007**

### **STATEMENT OF CLARIFICATION – JUNIOR AND SENIOR PAIRS SHORT PROGRAMS**

A discrepancy in the required elements for the **junior and senior pairs short programs** has been brought to the attention of the Chair of the Pairs Committee. This discrepancy needs to be clarified. For the 2007-08 skating season, the 2006 ISU Rulebook (pp. 92-93, Group B, h) states that a step sequence (straight line, circular, serpentine) is required in the both the junior and senior pairs short programs. The 2007 edition of the U.S. Figure Skating rulebook (pp. 587, 594, Group B, h) states that a spiral step sequence is required in both the junior and senior short programs.

At the junior and senior levels, it is U.S. Figure Skating policy to follow the ISU regulations concerning questions of this nature. Therefore, the **STEP SEQUENCE (STRAIGHT LINE, CIRCULAR, SERPENTINE)** will be required in the **junior & senior pairs short programs** for the 2007-08 season (Group B).

### **STATEMENT OF CLARIFICATION – JUNIOR MEN'S SHORT PROGRAM**

A discrepancy in the required elements for the **junior men's short program** has been brought to the attention of the Chair of the Singles Committee. This discrepancy needs to be clarified. For the 2007-08 skating season, the 2006 ISU Rulebook (pp. 87, Group C) states that d) a flying sit spin and e) a camel spin with only one change of foot are required in the junior men's short program. The 2007 edition of the U.S. Figure Skating rulebook (pp. 565, Group C) states that a d) flying camel spin and e) sit spin with only one change of foot are required in the junior men's short programs.

At the junior and senior levels, it is U.S. Figure Skating policy to follow the ISU regulations concerning questions of this nature. Therefore, the flying **SIT** spin and **CAMEL** spin with only one change of foot will be required in the **junior men's short program** for the 2007-08 season (Group C).

### **STATEMENT OF CLARIFICATION – JUNIOR LADIES SHORT PROGRAM**

A discrepancy in the required elements for the **junior ladies short program** has been brought to the attention of the Chair of the Singles Committee. This discrepancy needs to be clarified. For the 2007-08 skating season, the 2006 ISU Rulebook (pp. 87, Group C) states that d) a flying sit spin is required in the junior ladies short program. The 2007 edition of the U.S. Figure Skating rulebook (pp. 567, Group C) states that a d) flying camel spin is required in the junior ladies short programs.

At the junior and senior levels, it is U.S. Figure Skating policy to follow the ISU regulations concerning questions of this nature. Therefore, the flying **SIT** spin will be required in the **junior ladies short program** for the 2007-08 season (Group C).

**These clarifications are published on the U.S. Figure Skating web site and will be reflected on the online charts when they are updated. The 2008 edition of the U.S. Figure Skating rulebook will also reflect this correction.**

## **EVENTS – ARTISTIC**

Artistic events include light, dramatic and interpretive for singles. **Please see official entry forms for appropriate classification and levels of eligibility.** Events are also offered for duets and Theatre on Ice teams. Same rules of eligibility apply for artistic events that apply to free skating events. Juvenile and Open Juvenile levels may be combined. Programs are intended to enhance the skater's artistry and interpretation of the music rather than focusing on technical difficulty. Skating attire must fit the program and be appropriate for a family event. Hand held props (no glass) are allowed and can be set down on the ice. Except for Theatre on Ice, no props may remain on the ice for the entire program. All programs will be skated on full ice. Vocal music is permitted.

**Light & Dramatic** – Light programs are to be of a “feel good” nature where as Dramatic are to be more serious or melancholy in nature. Moves are to be selected for their value in enhancing the skater's artistry and interpretation of the music rather than technical difficulty. There are no requirements for jumps and spins, except that the difficulty may not exceed the equivalent free skating level. Cartwheels are permitted. Credit for jumps or spins will be based solely on the choreographic effectiveness.

**Interpretive** – Skaters are to create a program without assistance. Coaches and parents will not be allowed in the skaters' area once a skater has checked in. The organizing committee will supply a different piece of music for each interpretive event. Music will be approximately 1 minute to 1:30 in length. During the warm-up, the skaters will hear the selected music two times. Following the warm up, the skaters with the exception of the first to skate will be escorted to an area where they will not be able to view or hear the performance of the skaters preceding them. The music will be played a third time for the first skater before they take the ice. As the first skater is announced the next skater will be brought to a place where they can hear the music for a third time but will not be able to view the performance of the skater preceding them. This procedure will continue for all skaters in the group. Programs will be judged on artistic impression, choreography and pattern, creativity, musical interpretation, posture and carriage.

**Duets** – Create a program with another skater of similar skill level and perform the routine like you are in an ice show. Partner combination may be of any gender and may be of different club affiliation. Complete the entry form based on your individual skating level. Your duet event level will be determined based on the highest level partner of the duet. Partner lifts are not permitted.
